

## TN4 ROOM TEMPERATURE CONTROLS

### Power Manager 345

Provides power to controller module and is supplied within an 'easy to wire' enclosure.

Description	Code	Pack Quantity	Price each (£)
TN4 Power Manager	SIMT345	1	£450.00

### Universal Reset Module 422

Single On/Off or modulating boiler controls, weather compensator for four variable temperature systems and DHW control.

Description	Code	Pack Quantity	Price each (£)
TN4 Universal Reset Module	SIMT422	1	£895.00

### Universal Reset Module 423

Two On/Off or modulating boiler controls, weather compensator for four variable temperature systems and DHW control.

Description	Code	Pack Quantity	Price each (£)
TN4 Universal Reset Module	SIMT423	1	£975.00

### TN4 Wiring Centre 375

Ten zone wiring centre complete with two 'volt free' relays. Unit operates with 24Vac components in conjunction with an in built 50VA transformer. Power supply to wiring centre 230Vac.

Description	Code	Pack Quantity	Price each (£)
10 Zone Wiring Centre	SIMT375	1	£249.50

### TN4 Thermostat 537

Single stage with two button control thermostat. Unit can follow master schedule.

Description	Code	Pack Quantity	Price each (£)
TN4 Thermostat	SIMT537	1	£149.00

### TN4 Thermostat 538

Single stage with four button control thermostat, with floor temperature sensing capability. Unit can follow one of two master schedule.

Description	Code	Pack Quantity	Price each (£)
TN4 Thermostat	SIMT538	1	£195.00

### TN4 Thermostat 540

Single stage heat, single stage cool and fan, four button control thermostat. Unit can follow one of two master schedule.

Description	Code	Pack Quantity	Price each (£)
TN4 Thermostat	SIMT540	1	£249.00

### TN4 Thermostat 542

Single stage heat with four button control thermostat, with remote temp. sensing capability. Unit has a fully programmable schedule.

Description	Code	Pack Quantity	Price each (£)
TN4 Thermostat	SIMT542	1	£275.00

## TN4 ROOM TEMPERATURE CONTROLS

### TN4 Thermostat 546

Two stage heat, two stage cool and two fan, four button control thermostat, with remote temperature sensing capability. Unit has a fully programmable schedule.

Description	Code	Pack Quantity	Price each (£)
TN4 Thermostat	SIMT546	1	£529.00

### Mixing Expansion Module 441

Adds mixing capabilities to universal reset module 423. Compatible with 3&4 port mixing valves and is supplied with a mix sensor.

Description	Code	Pack Quantity	Price each (£)
TN4 Mixing Expansion Module	SIMT441	1	£700.00

### TN4 Setpoint Control 162

One stage heat/cool with programmable schedule. Second relay for hot tub, DHW and pool applications.

Description	Code	Pack Quantity	Price each (£)
TN4 Setpoint Control	SIMT162	1	£425.00

### TN4 User Switch 480

Switch has 3 inputs for ease of change between configurable 'scenes'. The inputs can be used for scene signals from: phone diallers/switches, building security systems, web controlled relays.

Description	Code	Pack Quantity	Price each (£)
TN4 User Switch	SIMT480	1	£239.00

### TN4 User Switch 481

Switch has 3 outputs for ease of change between configurable 'scenes'. The outputs can be used for warning signals enabling hot tubs and pools etc or sending 'scene' signals to third party devices.

Description	Code	Pack Quantity	Price each (£)
TN4 User Switch	SIMT481	1	£275.00

### TN4 Timer 033

Unit can operate with up to 4 system schedules and provides daylight saving time.

Description	Code	Pack Quantity	Price each (£)
TN4 Timer	SIMT033	1	£299.00

### TN4 Gateway 483

Monitor and adjust TN4 systems using any web browser. The TN4 gateway also provides two alert outputs and a single demand input with e-mail notification on system status/alert. Unit also has data logging capability.

Description	Code	Pack Quantity	Price each (£)
TN4 Gateway	SIMT483	1	£1,500.00
